## IT ALL BEGAN WITH ONE BRACE...

The Year was 1985...

In a cloud of dust, a loud crash and the agonizing screams of pain and defeat, EVS was born. Everyday, people that push the limits, surround themselves with outcomes like this. This is what makes an “EXTREME” athlete, an individual that shows no bounds and is willing to put it all on the line. So what does an athlete do that is always putting themselves at risk of injury? They find quality protective gear.

As the story goes, a motocross rider that injured his knee one too many times decided that the everyday pain he was going through was enough. Out of this, the idea was born; make a product that will protect athletes while they ride. This was the birth of genius and a company that focused on keeping riders in one piece.

The original product, the AMX-5 Knee Brace, which has been worn by some of the world’s most prestigious athletes, was the building block for today’s most complete extreme protection product line ever. With extreme athletes plagued by the injuries of increased speed and fierce competition, EVS product development was accelerated. With the same dedication extreme athletes put into their sport and the endless moments of sweat, blood and tears... EVS has spent the past 31 years solely focused on the safety of you.

# K N E E B R A C E S

We created the industry's first off-the-shelf moto knee brace back in 1985. Over the last thirty years we have refined and reengineered our braces while maintaining our position as the industry leader in knee brace technology. We are constantly innovating and experimenting with new materials, hinge technologies and frame structures utilizing field testing data and feedback from our racers. We have a range of knee braces designed to suit any riding situation.

## WEB PRO

The Web Pro Knee Brace was designed to be smaller, lighter and stronger than the original Web Knee Brace. It's constructed with an industry first twin wall carbon fiber frame for increased strength and rigidity. Patented Tru-Motion 3.0 hinges anatomically mimic the natural motion of the human knee and are made of aluminum and stainless steel for increased strength.

- Twin wall carbon fiber frame for maximum strength and rigidity
- Patented Tru-Motion 3.0 anatomically correct dual alloy hinges
- Dual Defense full coverage knee cup
- Adjustable hyperextension lockouts
- Sharkskin neoprene liner reduces brace migration
- Modular strapping system
- Compression comfort cuff
- Sizes: S, M, L, XL
- Sold individually or in pairs

### Web Pro Accessories

Web Pro Liner / Web Pro Patella Cups / Strap Kit /  
Strap Extenders / Gear Guards / Fusion Socks / Brace Sleeves

## AXIS PRO

The Axis Pro Knee Brace features an industry first aluminum and carbon fiber frame. The aluminum hinge allows for a low profile structure, which results in a comfortable, lightweight and rigid brace.

- Carbon fiber upper and lower cuffs
- Patented Tru-Motion 2.0 anatomically correct hinges
- Dual Defense full coverage knee cup
- Adjustable hyperextension lockouts
- Improved sharkskin neoprene liners
- Compression comfort cuff
- Improved synthetic leather modular straps
- Sharkskin fit molded liner
- Sizes: S, M, L, XL
- Sold individually or in pairs

CE  
EN 1621-2

### Axis Accessories

Axis Series Liner / Axis Series  
Patella Cups /  
Strap Kit / Strap Extenders /  
Gear Guards  
Fusion Socks / Brace Sleeves

## AXIS SPORT

Modeled after our Axis Pro, the Axis Sport Knee Brace was designed for lightweight comfort and flexibility utilizing reinforced nylon injected upper and lower cuffs. The aluminum hinge allows for a low profile structure, which results in a comfortable, lightweight and rigid brace.

- Patented Tru-Motion 2.0 anatomically correct hinges
- Dual Defense full coverage knee cup
- Reinforced nylon injected upper and lower cuffs
- Adjustable hyperextension lockouts
- Improved sharkskin neoprene liner
- Compression comfort cuff
- Improved synthetic leather modular straps
- FormFit frame
- Sizes: S, M, L, XL
- Sold individually or in pairs

CE  
EN 1621-2

## RS9 PRO

The RS9 Pro is the ultimate in form fitting comfort and protection. It's constructed of a lightweight and impact resistant injection molded shell with increased airflow. Carbon fiber torsion limiting struts increase strength and rigidity while keeping weight down.

- Patented Tru-Motion 2.0 anatomically correct hinges
- Carbon fiber torsion limiting struts
- Dual Defense full coverage knee cup
- Adjustable hyperextension lockouts
- Moisture wicking bio-foam molded liner
- ClickTec quick release buckle system
- FormFit frame
- Sizes: S, M, L, XL
- Sold individually or in pairs

CE  
EN 1621-2

**RS9 Accessories**  
RS9 Series Liner / RS9 Series  
Patella Cups / Strap Kit/

/ Brace Sleeves

## RS9

The RS9 offers lightweight comfort and protection. It's constructed of a lightweight and impact resistant injection molded shell with increased airflow.

- Patented Tru-Motion 2.0 anatomically correct hinges
- Dual Defense full coverage knee cup
- Adjustable hyperextension lockouts
- Moisture wicking bio-foam molded liner
- ClickTec quick release buckle system
- FormFit frame
- Sizes: S, M, L, XL
- Sold individually or in pairs

CE  
EN 1621-2

## SX02

The SX02 offers compression and support in a soft, formfitting pull-on brace. Bilateral polycentric (6061 T6) aircraft grade aluminum hinges offer strength and limit hyperextension.

- Bilateral polycentric (6061 T6) aircraft grade aluminum hinges
- Customizable 15° incremental flexion/extension stops
- 3 compression straps for added support and comfort
- Lightweight and breathable airprene construction
- Removable knee cup
- Sizes: S, M, L, XL
- Sold individually

## SX01

Modeled after the SX02, the SX01 features a shorter overall length and concealed hinges for an even lower profile formfitting brace.

- Bilateral polycentric (6061 T6) aircraft grade aluminum hinges
- Lightweight and breathable airprene construction for ultra comfort
- Removable knee cup
- Sizes: Youth; Adult S, M, L, XL
- Sold individually

## GEAR GUARD

- Reduces wear and tear on your gear and bike
- Attach to any knee brace to soften brace impact with your bike and protect the inner lining of your moto pants
- Sold in pairs

# KNEE & ELBOW PROTECTION

Our line of knee and elbow guards has you covered in any riding situation. Our full line is designed to be lightweight, breathable and comfortable without sacrificing protection. A good portion of our higher-end knee brace technologies have trickled down into our guards, making the entire line extremely unique and technologically advanced.

2017  
NEW

# TP199 KNEE GUARDS

## CUT AND ABRASION RESISTANT KNEE CUP

The cut and abrasion resistant knee cup is made from advanced impact foam technology. This material allows it to bend and flex under low pressure but hardens up under hard impact.

## MOLDED BIO-FOAM UPPER

The molded bio-foam upper provides added protection to the lower thigh, an area overlooked by most other knee supports.

## FLOATING INNER KNEE SLEEVE

The floating inner knee sleeve provides added support and prevents migration of the knee support during use. The sleeve is easily removable allowing the TP199 Knee Guards to fit a wide range of sizes.

Cut and abrasion resistant  
knee cup

Molded bio-foam upper

Floating inner knee sleeve

"Both of my knees are deformed enough that I can't wear traditional knee braces for any length of time. The TP199 knee cups are extra special because they are soft, comfortable and playable until they are hit with force, then they become solid as a rock. I literally won't get on a bike if I don't have these EVS knee pads. They are perfect for BMX, MX, FMX, RZR Driving, Big Wheeling and 3-Wheeling. If you like your knees, you need this pad..."

**TP199**  
KNEE GUARDS

2017  
NEW

## TP199 KNEE GUARDS

One of our most popular knee protectors has been completely redesigned for the 2017 season. Designed specifically for Travis Pastrana, the official TP199 Knee Guards offers everything for those looking for complete support without the bulk of a traditional knee brace. They are perfect for both track and trail riders.

- Cut and abrasion knee cup design utilizing "advanced impact foam" technology
- Molded bio-foam upper for increased impact protection
- Silicone strip on inner sleeve helps limit migration while riding
- Integrated internal floating knee sleeve helps give continued support even during brace migration
- Fully breathable mesh backing to help with temperature control
- Low profile, hard molded shin guard slips easily into your boot
- Sizes: Youth; Adult S/M, L/XL
- Sold in pairs

CE  
EN 1881-2

## EPIC KNEE

A step up from your traditional knee pad, the Epic Knee Pad offers complete shin and patella coverage. Using many design elements handed down from our high-end knee brace technology, the Epic utilizes our full floating knee cup, asymmetrical FormFit chassis and Full-Flex dual pivoting hinge system. The Epic also provides a plush contour molded bio-foam liner and quick release positive locking buckles with fully adjustable Dry-Suede straps.

- Flex Frame Technology for a custom fit and feel
- Floating patella system for full coverage protection
- Full flex hinges
- Quick adjustment strapping system
- Sizes: S/M, L/XL
- Sold in pairs

## OPTION KNEE

The Option Knee Pad features a hard molded polypropylene shell with a perforated bio-foam liner for increased breathability and superior impact protection. The reinforced TPR hinge system ensures full coverage and comfortable knee movement.

- Hard molded polypropylene shell
- Perforated bio-foam liner for increased breathability
- Full knee to shin coverage
- Reinforced TPR hinge system
- Asymmetric design for left & right legs
- Sizes: Mini (black only), Youth, Adult
- Sold in pairs

## EPIC ELBOW

The Epic Elbow Pad offers full elbow and forearm protection in a lightweight, breathable package. The active compression sleeve is breathable and reduces arm pump.

- Flex enhances comfort and protection between forearm and elbow
- Active compression sleeve reduces arm pump
- Silicone grip cuff helps reduce migration
- Sizes: S/M, L/XL
- Sold in pairs

## OPTION ELBOW

The Option Elbow Pad features a hard molded polypropylene shell with a perforated bio-foam liner for increased breathability and superior impact protection. The Tri-Y forearm strapping system ensures a snug, comfortable fit.

- Hard molded polypropylene shell
- Perforated bio-foam liner for increased breathability
- Tri-Y forearm strapping system
- Extended forearm protection pad
- Asymmetric design for left & right arms
- Sizes: Mini (black only), Youth, Adult
- Sold in pairs

## GLIDER KNEE

The Glider Knee Pad features a hard outside shell that rides on a flexible membrane. The inside layers remain soft & breathable for maximum protection and all day comfort.

- Hard impact polyethylene cup & molded bio-foam interior liner
- TPR limiters keep the cup where you need it during impacts
- Perforated soft airprene inner layer offers maximum ventilation
- Sizes: S, M, L
- Sold in pairs

Hard molded knee cup

The Gliders feature a slip-on design and are specifically built for the crossover rider in mind. They feature targeted compression and utilize a moisture wicking neoprene design. The Gliders are perfect for riders who are looking for a non-intrusive protection option.

## GLIDER ELBOW

The Glider Elbow Pad incorporates our innovative floating shell design, featuring a hard outside shell that rides on a flexible membrane. The inside layers remain soft & breathable for maximum protection and all day comfort.

- Combined hard impact polyethylene cup & molded bio-foam
- TPR limiters keep the cup where you need it during impacts
- Perforated soft airprene inner layer for maximum ventilation
- Sizes: S, M, L
- Sold in pairs

Moisture wicking neoprene fabric

## GLIDER KNEE LITE

Flexible knee protection utilizing EVS' innovative floating shell design: a semi-flexible outside shell rides on a flexible membrane while the inside layers remain soft & breathable.

- Combined TPR impact zone & molded bio-foam
- TPR limiters keep the shell where you need it during impacts
- Perforated soft airprene inner layer for maximum ventilation
- Sizes: S, M, L
- Sold in pairs

## GLIDER ELBOW LITE

Flexible elbow protection utilizing EVS' innovative floating shell design: a semi-flexible outside shell rides on a flexible membrane while the inside layers remain soft & breathable.

- Combined TPR impact zone & molded bio-foam
- TPR limiters keep the shell where you need it during impacts
- Perforated soft airprene inner layer for maximum ventilation
- Sizes: S, M, L
- Sold in pairs

## SC06 KNEE

Whether you ride motocross, hit trails on your mountain bike or drop in at your local BMX track, the SC06 is your complete 2-wheel knee/shin guard. Designed as a multi-sport guard, the perforated airprene construction along with a molded bio foam upper delivers a comfortable form fit along with impact protection. The SC06 also features an injected molded knee cup and shin guard to protect from big hits and pedal bites.

- Injection molded knee cup for increased patella protection
- Injection molded shin guard
- Dual wrap around upper and lower calf strapping system
- Molded bio-foam upper for increased impact absorption
- Compression comfort cuff reduces migration
- Breathable perforated neoprene construction
- Moisture wicking liner
- Sizes: Youth; Adult S/M, L/XL
- Sold in pairs

## BURLY ELBOW

The Burly Elbow Pad offers impact protection and compression properties in a low profile, lightweight design.

- Compression sleeve adds comfort while reducing pad migration
- Strapless fit system greatly reduces arm pump
- Molded foam liner with outer hard plastic cup
- Sizes: S, M, L
- Sold in pairs

R A C E  
C O L L A R S

Our race collar collection has been developed and refined over the years utilizing field testing data and feedback from real riders on the track and on the trail. Our collars are low profile and lightweight and are designed to minimize the risk of axial compression, hyperflexion, hyperextension and lateral hyperflexion.

# R4K

## SUPERIOR ENERGY ABSORPTION

The Koroyd structure has extremely efficient and consistent energy absorption properties. The cores decelerate the energy from an impact to reduce final trauma levels.

## LIGHT ON WEIGHT, STRONG ON PERFORMANCE

Koroyd is an extremely lightweight core, consisting of 95% air.

## PERFORMS WHEN THE HEAT IS ON

The mechanical properties of Koroyd remain stable in extremely hot and cold environments. Traditional energy absorbers suffer with reduced energy absorbing capabilities as they become hot and soft or cold and brittle.

## Neck braces - Compressive strength comparison

Adjustable rear strut

Built-in cleat for use with X-Strap Harness

Reinforced Koroyd pocket

## R4K

The R4K features a revolutionary Koroyd™ core with superior impact absorption and a reinforced nylon upper shell. The chassis has been completely redesigned to be lighter and more aerodynamic. During impact, the head is pushed down on the race collar. The R4K effectively fills the gap between your helmet and shoulder with Koroyd, which absorbs impact energy better than standard race collar materials.

- Koroyd® engineered core for superior impact absorption
- Reinforced nylon upper shell
- Lightweight, aerodynamic chassis design
- Rapid lock closure system for easy front entry
- Integrated X-Strap Harness cleats
- X-Strap Harness cleats compatible with redesigned Tug tops
- Polyurethane foam base
- Weight: ADULT = 498 grams, YOUTH = 308 grams
- Sizes: Youth, Adult

WKA and IKF approved

R4K and R4 Accessory  
X-Strap Harness / Tug Tops

## R4

The R4 is a lightweight, form fitting race collar offering protection against neck and collarbone injuries. The low profile design makes it a comfortable yet protective piece of gear you can wear on the track or on the trail.

- Hard molded upper surface disperses energy to PU core
- Hi-tensile closed cell PU core absorbs impact energy
- Bio-foam liner provides extra impact absorption
- Rapid lock closure system for easy front entry
- Compatible with redesigned Tug tops when integrated with X-Strap Harness cleats accessory (sold separately)
- Adjustable rear strut for a customized fit
- Weight: ADULT = 635 grams, YOUTH = 386 grams

WKA and IKF approved

## R 3

A lightweight, low profile race collar, the R3 provides protection against neck and collarbone injuries. It connects directly to most chest protectors for a stable, protective gear setup.

- Protects against axial compression, hyperflexion, hyperextension & lateral hyperflexion
- Easily connects directly to most chest protectors
- Easy front entry system
- Removable / washable liner
- Sizes: Youth, Adult

CE

## R 2

A lightweight, cost effective race collar, the R2 provides protection against neck and collarbone injuries.

- Low profile design
- Easy front entry system
- Removable / washable liner
- Sizes: Youth, Adult

CE

## SLAM COMBO

- Includes: Option Elbow Pad, Option Knee Pad and R2 Race Collar
- Color: Black
- Sizes: Mini, Youth, Adult

# CHEST PROTECTION

Our chest protectors are all designed to offer maximum chest, shoulder and back protection while keeping bulk and weight to a minimum. Some of our protectors are modular, allowing the protective properties and fit to be adjusted to fit the rider's needs and riding style.

## F2 ROOST GUARD

The F2 Roost Guard is a lightweight, fully customizable chest protector. Its fully modular design allows you to customize it to fit your protection needs in any riding situation.

- Lightweight ventilated high impact polypropylene construction
- Full modular design with removable shoulder and back guards
- Pivoting system eliminates darting for a snug, comfortable fit
- Ventilated design for maximum breathability
- Sublimated biofoam molded liner
- Neck brace compatible design
- Sizes: S (Youth), M, L, XL

## REVO 5

The Revo 5 is the perfect choice for riders looking for chest and back protection in an under-the-jersey design. The three part back plate moves and flexes with your body for a comfortable fit.

- Molded cross-link bio-foam interior serves as a shock-absorbing barrier
- Molded polycarbonate construction for maximum impact protection
- Three part back plate offers flex points to move with your body
- Fully adjustable fit to provide protection for riders of all sizes
- Neck brace compatible design
- Sizes: S/M, L/XL

## REVO 4

The Revo 4 is a backless, under-the-jersey protector offering roost deflection in a lightweight, low profile design.

- Molded cross-link bio-foam interior serves as a shock-absorbing barrier
- Molded polycarbonate front plate provides impact, abrasion and puncture protection
- Fully adjustable fit to provide protection for riders of all sizes
- Neck brace compatible design
- Sizes: S/M, L/XL

## VEX

The Vex is a lightweight, effective chest protector offering protection in any riding situation.

- Lightweight, durable polycarbonate construction
- Ventilated design for maximum breathability
- Low profile, lightweight design
- Full chest and spine coverage
- Adjustable front & back panels
- Neck brace compatible design
- Sizes: S (Youth), M, L

6

# B A L L I S T I C J E R S E Y S

Our collection of ballistic jerseys are designed to be worn under a jersey or by themselves. They are lightweight, form fitting and offer full upper body protection from impacts and abrasion. We use breathable materials and mesh panels to maximize airflow and comfort.

## COMP SUIT

The Comp Suit is an ultra lightweight ballistic jersey offering full upper body protection and breathability for all day comfort.

- Side zip design allows for full roost protection
- Removable arms add versatility for use during many extreme sports
- Hard plastic chest, back, arm & shoulder protection
- Full torso & elbow protection
- Full articulating spine protection that moves with you
- Lightweight ballistic fabric with mesh stretch panels for superior fit
- Neck brace compatible
- Built in compression belt for added lower torso protection
- CE certified model offered to European market
- Sizes: S, M, L, XL, XXL

## G6

The G6 is a lightweight, breathable ballistic jersey designed for maximum upper body protection for all-day comfort and breathability. Hard plastic panels cover chest, back, arms and shoulders while the built in kidney belt supports your lower back.

- Full torso & elbow protection
- Hard plastic chest, back, arm & shoulder protection
- Innovative frontal impact absorption panels
- Full articulating spine protection that moves with you
- Lightweight ballistic fabric with mesh stretch panels for superior fit
- Built in kidney belt for added lower torso protection
- Neck brace compatible design
- Fully machine washable
- Sizes: S, M, L, XL, XXL, XXXL, XXXXL

Accessories  
Hydration Pouch

## G6 LITE

The G6 Lite offers the same protection as the G6 minus the kidney belt. Designed as a lower profile option on the trail, the G6 Lite offers all day protection and comfort.

- Full torso & elbow protection
- Hard plastic chest, back, arm & shoulder protection
- Innovative frontal impact absorption panels
- Full articulating spine protection that moves with you
- Lightweight ballistic fabric with mesh stretch panels for superior fit
- Neck brace compatible design
- Fully machine washable
- Sizes: S, M, L, XL, XXL, XXXL, XXXXL

7

M X  
G L O V E S

Our MX gloves are designed to be low profile and breathable. They offer increased abrasion resistance in high wear areas and their form fitting design increases dexterity. Silicone infused fingertips offer increased grip on clutch and brake levers, keeping you safe while riding.

## WRISTER

The Wrister Glove features an innovative injection molded shock absorbing system that reduces hyperextension and compression related injuries.

- Integrated injection molded shock absorption system
- Offers protection from hyperextension and compression related injuries
- Silicone infused fingers and palm for increased grip
- TPR impact guards on knuckles
- Sizes: S, M, L, XL

The Wrister is the most supportive glove EVS produces. It offers a fully integrated shock absorber to truly reduce impacts while you ride. Perfect for riders who are just coming back from a wrist injury or riders simply looking for extra stabilization to help prevent hyperextension and compression during riding.

Injection molded nylon wrist support

Wrist support stabilizer

## WRAP

The Wrap Glove is designed to offer increased wrist support through a genuine leather wrap around compression strap.

- Genuine leather wrap around wrist support
- Synthetic leather thumb reinforcement
- Silicone infused fingers and palm for increased grip
- Sizes: S, M, L, XL

The Wrap is an improvement on our basic sport glove design. The glove features a genuine leather strap system making it perfect for riders who are looking for added support without the intrusion of wearing a full on brace.

## S U P P O R T

EVS is first and foremost a safety gear company. We offer a full line of technologically advanced support gear ranging from ankle braces to kidney belts to bi-lateral shoulder support systems. All of our support gear can be worn on and off the track.

## SB05 SHOULDER SUPPORT

- Provides superior compression & support for past shoulder injuries
- Adjustable arm closure design eliminates underarm chaffing
- Universal no snag design fit
- Easy on / off design
- Breathable air mesh construction with TPR gripper pull-tabs
- X-Strap Stabilizer System
- Sizes: S, M, L, XL, XXL

## SB03 SHOULDER SUPPORT

- Provides superior compression & support for past shoulder injuries
- Adjustable arm closure design eliminates underarm chaffing
- Universal no snag design fits left & right shoulders
- Easy on / off design
- Breathable air mesh construction with TPR gripper pull-tabs
- X-Strap Stabilizer System
- Sizes: S, M, L, XL, XXL

## SB04 SHOULDER SUPPORT

- Provides superior compression & support for past shoulder injuries
- Heavy duty molded EVA shoulder cup with 1680D ballistic nylon
- Adjustable arm closure design eliminates underarm chaffing
- Universal no snag design fits left & right shoulders
- Easy on / off design
- X-Strap Stabilizer and Impact System
- Sizes: S, M, L, XL, XXL

## SB02 SHOULDER SUPPORT

- Provides superior compression & support for past shoulder injuries
- Adjustable arm closure design eliminates underarm chaffing
- Universal no snag design fits left & right shoulders
- Easy on / off design
- Breathable, 3mm perforated, Velcro compatible, neoprene construction
- Sizes: S, M, L, XL, XXL

## KS61 KNEE STABILIZER

- Reinforced compression sleeve with medial bilateral support straps
- Provides compression for knee support & stability
- 3mm neoprene open patella design for comfort
- Slip on design
- Sizes: S, M, L, XL, XXL
- Sold individually

## KS21 KNEE SUPPORT

- Provides compression for knee support & stability
- 3mm neoprene open patella design for comfort
- Slip on design
- Sizes: S, M, L, XL
- Sold individually

## AB06 ANKLE BRACE

- Lace system helps prevent & support ankle sprains and injuries
- 3D mesh layers for softer fit and more breathability
- Ankle insert flexes around anklebone while giving added support and protection
- Fits right & left feet
- Sizes: S, M, L, XL, sold individually

## AS14 ANKLE STABILIZER

- Slip on design
- Fits right & left feet
- Sizes: S, M, L, XL
- Sold individually

## WB01 WRIST BRACE

- 2 interactive density plates add support while allowing full range of motion
- Universal design fits right & left wrists
- Size: One size fits most
- Sold individually

## WS91 WRIST STABILIZER

- Wrap around design
- Universal design fits right & left wrists
- Size: One size fits most
- Sold individually

## WS03 WRIST SUPPORT

- Universal design fits right & left wrists
- Size: One size fits most
- Sold individually

## AS06 ANKLE SUPPORT

- Slip on design
- Fits right & left feet
- Sizes: S, M, L, XL

TUG

[TECHNICAL UNDER GEAR]

EVS Technical Under Gear (TUG) product is built to enhance overall rider experience. TUG features technical details designed to integrate seamlessly with motocross protection gear, enhance mobility and provide all day comfort. Soft touch KWIK-DRI® fabrics wick sweat from skin and help regulate core temperature. Articulated rider specific moto-fits provide active compression zones at major muscle groups without the restriction or discomfort frequently felt with other compression products.

2017  
NEW

## TUG

### NECK BRACE INTEGRATION LOOPS

Neck brace integration loops improve rider comfort by eliminating the need for a separate X-Strap Harness. Designed for R4K integration and compatible with all EVS and most competitor neck braces.

### CHAMOIS PAD

The TUG pants and shorts come with a ultra light moto specific chamois pad, designed to keep you dry and comfortable while riding.

### MATERIAL

The TUG line features a close to the body fit, hi-viz detailing and soft touch fabric for all day comfort. Lightweight, breathable jersey fabric keeps you cool and comfortable all day long.

## CTR VEST

Core Temperature Regulator. Sleeveless cooling vest with strategically placed layers of super absorbent polymer.

- Constructed of thin, strategically placed layers of "Super Absorbent Polymer"
- Once saturated with water, polymer retains and slowly disperses to keep you cool
- Strategic sections will keep your core temperature down longer helping to maximize your riding session
- Compatible with race collar cleat attachment system
- Sizes: Adult XS/S, M/L, XL/XXL

## FUSION SOCK

- Reinforced heel & toe for durability
- Extends to lower thigh for added comfort under knee protection
- Vented Lycra construction keeps you cool
- Gripper calf & thigh keeps braces in place
- Sizes: Youth; Adult S/M, L/XL
- Sold in pairs

## COOLMAX SOCK

- Material is antibacterial, breathable and moisture wicking
- Reinforced heel and toe for durability
- Extra tall for added comfort under knee protection
- Sizes: S/M, L/XL
- Sold in pairs

## BRACE SLEEVE

- Prevents brace rub & secures fit
- Fits under all braces
- Sizes: XS, S, M, L, XL
- Sold in pairs

## SWEAT BEANIE

- Vented lycra with terry cloth sweat band
- Keeps sweat out of your eyes
- One size fits most

## MOTO SOCK

- Material is 100% cotton and breathable
- Reinforced heel and toe for durability
- Extra tall for added comfort under knee protection
- Sizes: S/M, L/XL
- Sold in pairs

STREET  
GLOVES

|||| ||| ||

EVS Street Gloves are made from high quality materials and come in on and off the track designs. We offer warm and cold weather gloves to suit any riding environment.

## LAGUNA AIR

The Laguna Air Glove is a summer riding glove designed with maximum breathability in mind. It is lightweight and features leather palm reinforcements for increased abrasion resistance.

- Lightweight air mesh provides breathability and comfort
- Ergonomic finger construction offers excellent fit
- Synthetic suede palm provides tactile feel
- Leather palm reinforcements for abrasion resistance
- Sizes: S, M, L, XL, XXL

## VALENCIA

The Valencia Glove is a lightweight, super breathable glove with padded knuckle protection. It features leather palm reinforcements for increased abrasion resistance.

- Lightweight air mesh provides breathability and comfort
- Ergonomic finger construction offers excellent fit
- Synthetic suede palm provides tactile feel
- Leather palm reinforcements for abrasion resistance
- Molded foam knuckle pad for impact resistance
- Sizes: S, M, L, XL, XXL

## ASSEN

The Assen Glove is a lightweight, breathable glove perfect for the track or the street. The carbon fiber knuckle provides superior impact and abrasion protection, while the padded leather palm provides all day comfort and dexterity.

- Leather and air mesh construction for breathability
- Full leather padded palm
- Carbon fiber knuckle for maximum impact resistance
- Molded pads for finger protection
- Stretch airprene cuff with TPR closure
- Sizes: S, M, L, XL, XXL

## NYC

The NYC Glove is constructed of breathable air mesh with genuine leather in crucial, high wear areas. The carbon fiber knuckle provides superior impact and abrasion protection, while the padded leather palm provides all day comfort and dexterity.

- Leather and air mesh construction for breathability
- Full leather padded palm
- Carbon fiber knuckle for maximum impact resistance
- Molded pads for finger protection
- Stretch airprene cuff with TPR closure
- Sizes: S, M, L, XL, XXL

## SILVERSTONE

The Silverstone Glove is a full leather, short cuff race glove, ready for the track. It features a vented high impact polycarbonate knuckle guard and padded palm panels for increased protection.

- Vented high impact polycarbonate knuckle guard
- Full leather padded palm
- Exhaust vent above wrist increases airflow
- Stretch accordion finger panels for increased dexterity
- Adjustable TPR closure cuff
- Sizes: S, M, L, XL, XXL

## MISANO

The Misano Glove is a full leather, gauntlet cuff race glove, ready for the track. It features a vented high impact polycarbonate knuckle guard and padded palm panels for increased protection.

- Vented high impact polycarbonate knuckle guard
- Padded palm panels for impact absorption
- Exhaust vent above wrist increases airflow
- External stitching around fingers provide increased tactility
- Stretch accordion finger panels for increased dexterity
- Adjustable gauntlet cuff for fit and increased protection
- Sizes: S, M, L, XL, XXL

## BLIZZARD

The Blizzard Glove is perfect for riding in chilly wet weather. Its fully weatherproof and features a carbon fiber knuckle for increased knuckle protection. The full leather palm offers maximum dexterity and abrasion resistance.

- Full leather palm for fit and protection
- Adjustable cuffs offer custom fit
- Suede reinforcement panels on palm provide increased durability
- Impact resistant lower palm protection
- Carbon fiber knuckle for impact protection
- Reflective piping
- TPR shield wiper
- Sizes: S, M, L, XL, XXL

## CYCLONE

The Cyclone Glove is a full leather glove that's insulated and weatherproof. It's perfect for riding in extreme cold, wet weather. It features a leather wrapped knuckle guard for increased protection. The full leather palm offers maximum dexterity and abrasion resistance.

- Full leather construction for fit and protection
- Adjustable cuffs offer custom fit
- Leather reinforcement panels on palm provide increased durability
- Impact resistant lower palm protection
- Leather wrapped hard knuckle guard for impact protection
- Reflective piping
- TPR shield wiper
- Sizes: S, M, L, XL, XXL

STREET BODY  
ARMOR

EVS Street Body Armor is designed to keep your upper body and limbs protected in the event of a crash. They feature high impact polypropylene panels for increased impact protection where you need it most.

## COMP JACKET

The Comp Jacket is the ultimate in lightweight, full upper body protection. It features shoulder, elbow, chest and back impact protection. The articulating spine protection panels moves with you, allowing full range of motion. The lightweight fabric with mesh stretch panels keep you cool all day long.

- Lightweight fabric with mesh stretch panels for superior fit and breathability
- Full articulating spine protection that moves with you
- Full torso and elbow protection
- Foam impact chest panels
- Built in compression kidney belt
- Removable PU back armor for cleaning
- Sizes: S/M, L/XL, XXL

## STREET VEST

The Street Vest is lightweight and breathable. It features adjustable shoulder straps and an aerodynamic back hump that doubles as either storage or a hydration pack.

- Adjustable shoulder straps
- Aerodynamic hump doubles as a hydration pack or storage
- Adjustable kidney belt
- Foam impact chest protectors
- Sizes: S/M, L/XL, XXL

## COMP VEST

Modeled after the Comp Jacket, the Comp Vest is a sleeveless upper body protector with padded chest pads and articulating spine protection panels that move with you, allowing full range of motion. The lightweight fabric with mesh stretch panels keep you cool all day long.

- Lightweight fabric with mesh stretch panels for superior fit and breathability
- Full articulating spine protection that moves with you
- Foam impact chest protectors
- Compression fit
- Will fit under most jackets
- Sizes: S/M, L/XL, XXL

## SPORT VEST

Lightweight and breathable, the Sport Vest features articulating spine protection panels that move with you, allowing full range of motion.

- Full articulating spine protection that moves with you
- Adjustable shoulder straps
- Adjustable kidney belt
- Foam impact chest protectors
- Low-profile design to fit under most jackets
- Sizes: S/M, L/XL, XXL

## RACE BACK

The Race Back is a low profile back protector with articulating spine protection panels that move with you, allowing full range of motion. It features an extra lower back panel for increased impact protection.

- Full articulating spine protection that moves with you
- Custom molded foam back for maximum airflow
- Built in compression kidney belt
- Adjustable arm straps
- Sizes: S/M, L/XL

## SP KNEE

The SP Knee Guard is a rugged, yet lightweight and breathable knee guard with replaceable PU knee sliders. Vented panels and airmesh sleeve to keep you cool in any riding situation.

- Replaceable PU knee sliders
- Vented panels with airmesh sleeve for heat dispersion
- Extendable shin guard for increased coverage
- Impact resistant PU structure with EVA padding
- Sizes: S/M, L/XL

## SPORT BACK

The Sport Back is a low profile back protector with articulating spine protection panels that move with you, allowing full range of motion.

- Full articulating spine protection that moves with you
- Custom molded foam back for maximum airflow
- Built in kidney belt
- Adjustable arm straps
- Sizes: S/M, L/XL

## SP ELBOW

The SP Elbow Guard is a low profile, lightweight elbow guard offering superior protection and breathability. Vented panels and airmesh sleeve keep you cool in any riding situation.

- Vented panels with airmesh sleeve for increased breathability
- Extendable forearm guard for increased coverage
- Impact resistant PU structure with EVA padding
- Sizes: S/M, L/XL

Size	Shoe Size (US)	S / M	7-10	L / XL	10-13
Y	4-7 (Fusion Sock Only)				

## WARRANTY

Every EVS product is covered by a one-year (from date of purchase) warranty on manufacturing defects when purchased new from an authorized EVS Dealer. EBay sellers and other sellers may not be considered authorized EVS dealer sellers. Warranties cover original manufacturing defects in material and/or workmanship, not normal wear and tear. All products covered by this EVS warranty program will be repaired or replaced. EVS headquarters will determine whether a product can be repaired or must be replaced. Products will be replaced with like or similar product size and model as those originally purchased. Can upgrade at additional cost. No downgrades or refunds. Customer must obtain a warranty return authorization number and must include it on the warranty return form when returning the product to EVS. The proof of purchase must be included with the return. All warranty returns must be sent to EVS Headquarters, postage prepaid. All product shipped to EVS Central (Wisconsin) will be refused and returned to sender. EVS will pay freight costs for return of warranty repaired or replacement products to customer at regular ground rates within the first year of warranty only when proof of purchase is provided. Customer is responsible for any express shipping charges above regular ground. When a product is in a backorder status, warranty replacements will be given priority when new product is received. Dealers should advise their customers to direct all warranty questions or problems directly to EVS Headquarters. The decision for all warranty issues must come from EVS Headquarters directly.

### WARRANTY ON KNEE BRACES

One-year warranty (with proof of purchase). We will repair what is broken and ship back free of charge. After one year or no proof of purchase, repair prices are as follows:  
 One buckle replaced: \$10.00  
 All buckles replaced: \$40.00 per brace  
 Knee cup /liner: \$20.00 per brace  
 Complete refurbishment (including all d-rings, knee cup and hinge covers): \$60 per brace  
 Shipping: \$12.95 one brace / \$17.95 two braces  
 Handling: \$3.00 (required for residential shipping)

If there is no proof of purchase, or if it is over one year, a new knee brace must be purchased.

### EVS RETAIL & RIDER CUSTOMERS

Any EVS product may be returned within 30 days of date of purchase for a refund if purchased directly from EVS, accompanied by a copy of the original invoice, is unused, and in new condition. There is no refund on original shipping and handling charges. A 20% restocking fee will be charged for products returned for refund. Products returned for credit toward a future purchase will not be charged a restocking fee. There will be no credit given on original shipping and handling charges. Freight will be charged on any subsequent purchase using the credit balance. If product was purchased elsewhere it should be returned to that dealer, unless there is a warranty or manufacturing issue. EVS will not process refunds for retail customers for items purchased elsewhere. Any EVS product may be exchanged within 90 days of date from purchase if received by EVS unused and in new condition. A shipping and handling fee will be charged. A return authorization (RA) number/form must be obtained before returning the product. A copy of the original invoice must be included with the return and return form. Contact EVS Sports at (310) 637-5000 for an RA number/form.

### DEALERS & DISTRIBUTORS

EVS products may be returned for a refund or credit as long as the product is unused, in new condition and can be restocked. Credit to be determined if the item is an older and/or discontinued style. A 20% restocking fee will be charged. Restocking fee will not be charged if a replacement PO is submitted to EVS Sports. Dealers with credit terms will have their account credited. Dealers with COD terms will have a credit put on their account. Dealers who pay by credit card will receive a refund on their credit card. Dealers are to handle all non-warranty returns and exchanges of merchandise for their customers. This includes size or product exchange. If EVS handles a size exchange instead of the dealer, the customer will pay shipping both ways. Other exchanges or returns will not be handled by EVS for Dealer customers.
